

INTRODUCING CLEARVIEW AI 2.0

Investigative intelligence you won't find anywhere else.

Simplify investigations, run comprehensive reports, gain administrative oversight, organize and archive results, and leverage an easy-to-use investigative workflow.

Victims. Suspects. Associates. Insights. People. Threats. **Leads Identified. Cases Solved. Justice Served.**

- ✓ Highly accurate for all demographics
- ✓ Secure
- ✓ Trusted

ACCELERATE CASES WITH PUBLICLY AVAILABLE FACIAL IMAGES

Search any facial image of a suspect, victim, or other person of interest against over 30 billion online images. Efficiently process and gain insights from information you already possess from open-source images.

ONLINE OSINT IMAGES YOU WON'T FIND ANY OTHER WAY

Identify those without an alias presence, without a prior arrest record or DMV record, or others that would often remain unidentified.

30+ BILLION FACIAL IMAGES & CUSTOMIZABLE GALLERIES

Our database is sourced from social media posts, news articles, online mugshots, public record sites and thousands of other open source websites. Users can import their own private, customized facial datasets such as mugshot repositories or watchlists.

#1 IN U.S. & #2 IN WORLD

Across mugshot, visa, border & wild photo categories¹

Our database is the most representative of the population and is **not limited to criminal offenders** (mugshot database).

With over 30 billion publicly available images, Clearview AI's database covers a **multitude of ages, ethnicities, and physical characteristics.**

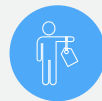

99+%

Accuracy for all demographics¹

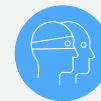

MADE IN THE **USA** 

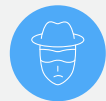

CRIMES SOLVED

Human Trafficking

MAXIMIZE YOUR INVESTIGATION MANAGEMENT

ORGANIZED INVESTIGATIONS

- Organize multiple searches of the same or different persons of interest within the same investigation.
- Save searches and get notified when new images are found that match your previously run probe image.

RELEVANT & IMPACTFUL INVESTIGATIONS

- Archive investigations to clearly see ongoing investigations all at once, as well as toggle between history, saved and all previous searches.
- Reference searches by case number, crime type, or other identifiable name.
- Capture success stories and catalog impact of searches using the new investigative workflow.

COMPREHENSIVE INVESTIGATIONS

- Capture feedback, justify ROI, audit and manage searches, metrics and outcomes with comprehensive usage reports.
- PDF exports with enhanced visibility into the details of the investigation for better management and oversight.
