

The Multidisciplinary Team Series

eLearning modules

Developed in collaboration with nationally acclaimed trainer Jerri Sites, MA, the Multidisciplinary Team Series provides an online solution to training and developing multidisciplinary team members.

Each peer-reviewed module is based on the national standards for best practice.

Evidentia Learning's modules have been approved by the NCA for **"formal didactic training."**

In partnership with:

Jerri Sites, MA

SPECIAL
OFFER

Evidentia Learning develops e-learning solutions solely in the field of child abuse & neglect. We serve over 6,000 professionals in over 500 institutions worldwide.

The Multidisciplinary Team Series

eLearning modules

Multidisciplinary Team Series: Orientation

This eLearning module supports Children's Advocacy Centers in orienting and training new MDT members based on the National Children's Alliance's 2023 Edition of the Standards for Accredited Members.

- Answers the most difficult questions faced by new MDT members.
- Explores the history of the CAC movement and the origins of the MDT approach to child abuse.
- Introduces the NCA standards and shows how team members can shape local protocols.
- Helps learners understand the child's perspective as well as the connected roles of team members so they can better serve children and families.
- Clinical vignettes illustrate how the CAC solves collaboration issues and improve interventions.

COMING SOON: additional modules in The Multidisciplinary Team Series, including:

- Multidisciplinary Team Investigations
- Trauma-informed Investigations
- Offender Manipulation and Grooming
- Children's Process of Disclosure
- Risk Factors for Recantation
- Approach to Children with Problematic Sexual Behaviors
- Medical Overview for non-medical Professionals
