Training and Testing

Solving today. Equipping for tomorrow.

The trainings and professional certificate program established by TIN ensures our customers the highest level of language services, meeting standards that exceed those prescribed by the American Translation Association (ATA), the International Medical Interpreters Association (IMIA), the National Council on Interpreters In Healthcare (NCIHC), and the National Association of Judiciary Interpreters and Translators (NAJIT).

- Interpreters and translators are tested and trained to provide only the highest quality services
- 20+ years of professional development courses exceeding the highest national and international standards
- Accessible anywhere, anytime, any device

Consulting

Explore strategies to elevate your business or organization to greater efficiency and communication results.

- Industry-specific language service solutions
- Management support
- Back support
- Customized trainings
- White labeling

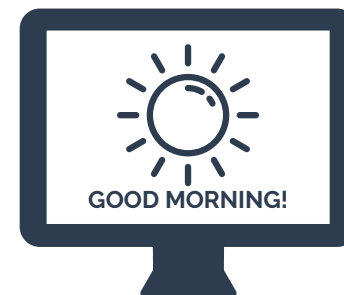

Voice-over, Subtitle and Closed Caption

With TIN you can now send your videos to clients all over the world!

Voice-Over

An audio track is created using voice actors and synced with your video content

Subtitle

Text is placed over the screen, translating spoken dialogue in your video and any text that shows up on the screen (e.g. text messages, quotes, generic, etc.)

Closed Caption

Designed for deaf and hard of hearing audiences, closed captions place text over the screen for dialogue and important audio elements

With TIN, you're in good hands.

Quality and customer satisfaction drive our business. In our 20-year existence, TIN has earned a reputation for high-quality interpretation and translations, excellent training of interpreters, training of trainers, as well as consulting services.
